

This cause of Judge Riddell's defeat is thus truthfully explained by a correspondent of the Louisville Post, a Democrat of Eastern Kentucky who is well posted on the political situation. He says: "The defeat of Judge Riddell by Judge Holt for Judge of the Court of Appeals is a severe blow to the Democracy of that section, and the manner of his defeat has disgusted the best Democrats not only of that section, but of the entire State, and it won't be surprising to me if we suffer a disastrous defeat in the Ninth and Tenth Congressional districts in November, so great is the demoralization and disaffection among a majority of the Democrats since the defeat of Judge Riddell. What caused his defeat? A lot of so-called Democrats were the cause of Holt's election. Judge Riddell was the choice of nine tenths of the Democrats in that district. The convention which nominated him was the largest ever held before and many of the delegates who contributed their utmost to defeat him for the nomination aided the Republicans in electing Holt at the election before the people. Judge Riddell had no money while Holt's friends used at least \$25,000 as a corruption fund, a considerable portion of this sum being subscribed by a gang of so-called Democrats, who wanted Riddell knifed, Judge Hargis and his lieutenants are responsible for this Democratic defeat, and the Democracy of the State should hold them to strict account in the future for their treachery. The Democrats of the First Appellate District, by electing the present Chief Justice, have sacrificed that district to pass into the hands of the Republicans, and the Ninth and Tenth Congressional Districts, both of which are now represented by Republicans, all of which was brought about by the division in the Democratic party—the Hargis and anti-Hargis factions. Judge Riddell made this fight single-handed and alone, and only two or three Democrats in the district made speeches in his behalf. One of 'Centro Gordo' Williams, who is repairing his fences preparatory to making the race for the next Governorship, could not find time to speak, when he was most needed and his friends, or at least some of them, thought that his silence was indicative that he wanted Riddell downed. Hon. W. J. Hendricks, the 'statesman' from Fleming, and Assistant Elector for the State-at-large, was as silent as a dumb animal, and is reported to have asserted that he had no interest in the race, when there were other causes which led to Riddell's defeat. The entire influence of the Christian Church was used against him, and I have heard that the wife of the late Judge Reid subscribed \$1,000 for the election of Holt. In Kenton county a family of Democrats, numbering over one hundred, voted against Riddell because, as Circuit Judge, he decided a case against one of the family. The vote in Bourbon county was simply a shame, and Hon. Charles Offutt will have to rise and explain at the next session. It was a poor showing if he did any work for Riddell. The latter will be defeated by about three hundred, and if Bourbon county had done better duty Riddell's majority would have been less than three hundred. This district comprises more than one third of the counties of the State, and a Republican victory in this Presidential year will have considerable effect on other sections."

The cost of the electric light for the illumination of cities, as compared with gas, has been compared by Hartford, Conn., where the lights have been in use for about a year. The report states that each electric light in use displaces six and one-half gas burners, besides giving at the same time less than \$35 per annum, less burning five hundred and twenty-two nights in the year, while for the electric lights it costs a night is paid. The electric light being equal to six and one-half gas burners, a saving of \$15.60 per lamp per annum is effected by the use of electricity, besides the cost of lighting and extinguishing the gas lamps.

The Solid Truth.

The Frankfort Yeoman says: "There is a report that some of the heretofore shining lights of the Democratic party in Eastern Kentucky aided in knifing Judge Riddell on Monday. They did not have the courage to vote against him themselves, but worked industriously for Holt. If this be true, the whole gang should be exposed. The Democracy of Kentucky ought to know all their names, from the 'dwarfs' to the 'giants'."

This report has reached Washington that Republicans are importing a large number of colored voters from Kentucky and West Virginia into Ohio to give for Virginia, and every day becomes more so. Germans are deserting the ticket in large numbers. The statement of importations of colored voters is made on the authority of railroad officials who transport them.

CONDENSED NEWS.

CASE of Asiatic cholera is reported at Birmingham, Eng.

News from East Tawas, Michigan, report destructive forest fire.

Illinois State anti-Monopolists convened at Bloomington, Tuesday, to hold a State Convention.

The conference of the train dispatchers at Louisville, August 20, is held for the purpose of organizing an association.

It was reported in business circles at Pittsburgh Monday that the Coal Valley Company has been compelled to ask for an extension of credits in consequence of losses amounting to \$200,000. The company is composed of five States, brothers.

CAPTAIN D. H. CRAIG, who was sent to Key West to investigate as to the disappearance of Captain Lewis of the schooner John Baker, reports that from the statements of witnesses he believes that the Captain was killed by the one and the same vessel, and that the latter thereafter navigated the vessel and left the cargo. The mate is now awaiting trial by Key West.

A great excitement in commercial circles at Liverpool over the report from Bagdad on the gold coast of Western Africa, was it to be expected that a German warship, which is said to have been sent to the coast to destroy the British flag, and that it hoisted the German flag in its stead, claiming that heretofore it had been the property of the British flag.

A CASE of terrible mental cruelty came from Philadelphia a few days since, in which a man, who had been married 18 years, killed his wife because his past three years, been confined in an insane asylum. The father, a wealthy man, himself carried the man, now 29 years old, who in turn, in his rage, beats him and neglects his wife, and is now in an insane asylum where he will last twelve thirty to twenty.

DAVID AVERY, a farmer near Vienna, Illinois, burned a stack of wheat a considerable and just sold on an execution. This is related toward town, meeting a couple of neighbors and a few friends. Paul Litch, the farmer and shot Dan Gage in the back with the slightest provocation. Gage died in a few minutes. Gage kept on his way, and turned the barn and the wheat stack of a farmer named John Dunn. He then made a escape to the woods, and an armed posse pursuing him, a desperate chase, and it is not believed he will be taken alive.

AN AWFUL EXPLOSION.

One Hundred Persons Said to Have been Killed.

VIENNA, Aug. 20.—The Telegraph states that a powder magazine and five Government officers at Kasu (Ruska) were blown up by dynamite on the 14th inst. The explosion killed 100 persons were killed. The authorities had previously received an anonymous warning, but had disregarded it.

More Proof.

CINCINNATI, Aug. 20.—A dispatch from India, India, says: The body of Private Whistler, of the Grenadier expedition, has been exhumed. The limbs and parts of the body and head were found in the same position as the body was in when it was found. The body was, however, established. The heart, lungs and intestines were untouched. Marks of the knife were very plain.

A New President.

New York, Aug. 20.—John King, Jr., has accepted the Presidency of the New York, New Jersey & Western Railroad Company. His formal acceptance will be presented soon by the committee which was appointed to wait upon him with the proper salutes.

Says the New York Press.

NEW YORK, Aug. 20.—The Western continues its attacks on Butler, calling him an expert politician, salary grabber, turn-coat, and tender of soldiers of cadets. The Sun says Butler will make a first speech in New York Aug. 20, and will contest Massachusetts, New York, Connecticut and New Jersey, the States Democratic Party will carry the North, thus showing that he intends to defeat Cleveland. The Times says the Prohibition ticket can be made to play an important part in the campaign, and an exclusively handled can be made to assure New York to Cleveland. The Tribune attacks Cleveland's record as sheriff of New York, claiming he was overcharged. The Herald calls upon Arthur to protect the Government employees from Butler's schemes, and claims that Butler is by running away to California to let Hubbell ride the clerks of the department, the most contemptible act of a contemptible administration.

Dead 5, Sold.

NEW YORK, Aug. 20.—The report that Vanderbilt had sold Maud R. to Robert Bonner, of the New York Ledger, is true. Mr. Vanderbilt was asked by the Bonner paid for her, and he replied that if Bonner wanted to tell her that he could; it was his business. It is known that Mr. Vanderbilt had been offered \$100,000 for her, and he had refused, as he did not want her to fall into the hands of a professional fortune.
